Original correspondence

Hello,

I received my annual escrow account statement dated September 10. It says my escrow account has a surplus of \$486.27 and that a check will be mailed to me, and that my monthly payment goes down to \$1,562.96 starting November 1.

Can you change this to an EFT instead? I'd rather not keep dealing with paper checks and waiting for them to clear. I've attached the statement.

Thanks,
Danielle Foster
Loan ending 0005

Sent response

Dear Danielle R. Foster,

Thank you for contacting Northstar Residential Servicing. We received your email on September 21, 2026 asking us to use an electronic funds transfer (EFT) instead of a paper check for your mortgage loan ending in 0005.

We want to be sure we set up the right thing. On a mortgage account, an electronic transfer can mean one of three different things, and each one needs its own authorization:

- A refund sent to you. For example, the escrow surplus refund of \$486.27 from your escrow account statement dated September 10, 2026 could be deposited into your bank account instead of being mailed as a check.
- Automatic monthly payments. Your mortgage payment (\$1,562.96 beginning November 1, 2026) would be drawn from your bank account each month instead of being paid by check.
- A draw from a line of credit. If you have a home equity line of credit, money would be advanced from the line to your bank account.

Please reply to this email and tell us which one you mean. Once we know, we will tell you exactly what we need from you to set it up.

We have not made any changes to your account. No money will be moved electronically until we know what you are asking for and have received and verified your written authorization. In the meantime, please continue to make your monthly payments as you do now.

If you have questions, please reply to this email or call Customer Care at (800) 555-0142, Monday

through Friday, 8:00 a.m. to 8:00 p.m. Eastern Time.

Thank you for choosing Northstar Residential Servicing.

Sincerely,
Customer Correspondence Team
